

*Joe, John: This man
received brief. He is the
environmental critic for
the N.D.P.*

November 9, 1973

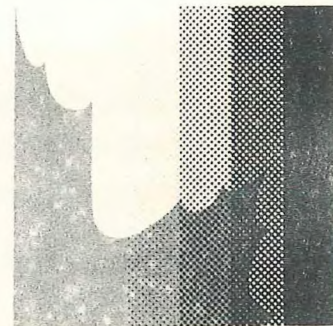

Mr. Randolph Harding
M.P. Cootenay West
House of Commons
Ottawa, Ontario

Dear Mr. Harding:

It was indeed a pleasure to meet you several days ago when Andrew Brewin brought me to your office to discuss the work done by the Canadian Environmental Law Association. I trust that in the future we will be able to provide you with information that will be useful in discussions of environmental matters in the House.

In that regard I have enclosed information on the Canadian Environmental Law Association and the associated organization, the Canadian Environmental Law Research Foundation. I have also enclosed one copy of the environmental impact assessment procedure paper that we did recently here in Ontario in response to the Ontario government's planned legislation for environmental impact assessment. I think that you will see in this brief that the recommendations for environmental impact assessment here in Ontario are equally applicable to the Ottawa scene. For your convenience there is a five page summary of the contents of the paper at the beginning which will enable you to get the main points of our recommendations and to use the following pages for back-up material if required at any point in the future.

In addition I have now added your name to our complimentary mailing list which will mean that on a regular basis you will receive editions of the Canadian Environmental Law News, (copy enclosed). As environmental critic for the

Canadian
Environmental
Law
Association
L'Association
canadienne
du droit
de l'environnement
