G.M. Clark,
Dep't Zoology,
Ramsey-Wright Bldg.,
25 Harbord Street,
TORONTO, M5S 1A1.

Dear G.M. Clark:

I have a copy of an abstract concerning the Welcome Residue area. I understand that there was a seminar or some kind of discussion arranged with respect to the results of the study in the Port Hope area and that you or one of your colleagues has devised a new method of testing for either radiation or radon gas levels.

As you can see, my information is somewhat vague and I would appreciate it if you could either send me a copy of the Agenda for the discussion or seminar, plus a list of the papers which were presented, or perhaps you could give me a phone call and we could discuss.

As you may know, we were involved with the residents in Port Hope concerning the legal implication of radio-active waste disposal and we want to be as up to date as possible in the area.

Yours very truly,

Heather Mitchell,
Counsel
