Dear Heather:

Joe Clark has been good enough to send me a copy of his letter to you of May 26th which was in reply to your correspondence dealing with the hazards in Port Hope.

I am the newly appointed Chairman of our Caucus Committee on Environment, but I hasten to say that with regard to the Port Hope situation, it has been left in the very capable hands of Mr. Allan Lawrence, M.P. in whose Riding of course Port Hope is located.

I am taking the liberty of enclosing the correspondence you had with our Leader to Al Lawrence, and you may wish to contact him. Normally of course, I would have a very direct interest in this matter, but because of Allan's abilities, there is no question that he should be the responsible Member of Parliament in this case. I might mention that he has asked numerous questions in the House of Commons on this subject. I am sure if you require any information or assistance from him, he would be happy to comply.

Yours sincerely,

Bill Jarvis, M.P.
Perth-Wilmot.
