The City Editor
Port Hope Evening Guide
Port Hope, Ontario

Dear Sir or Madam:

Thank you very much for covering my recent speech in Toronto on the subject of the legal implication of the radon gas issue in Port Hope. The Canadian Environmental Law Association was quite worried that people had a limited time in which to consult their lawyers and ascertain whether they had grounds for a legal action and your coverage of my speech certainly helped to publicize the fact that the sixth month limitation period was rapidly running out.

I am enclosing a copy of my remarks in case you wish to keep them on file.

Thank you once again. It was a big help to us in getting the message across, to have the Port Hope Evening Guide write a story about it.

Yours very truly,

CANADIAN ENVIRONMENTAL LAW ASSOCIATION

Heather Mitchell
Counsel
