

March 17, 1976

Mr. John Goddard
Peterborough Examiner
Peterborough, Ontario

Dear Mr. Goddard:

Enclosed is a copy of the remarks I made on March 3, 1976 at the forum held to discuss the problems that have arisen in Port Hope as a result of radon contamination.

As you can see, my remarks were very general; as I pointed out that day, not having interviewed all 130 affected families, I could not speak with authority about the exact legal rights and remedies each might have.

Please keep in touch.

Yours very truly,

CANADIAN ENVIRONMENTAL LAW ASSOCIATION

Heather Mitchell
Counsel
