Dear Sir or Madam:

Thank you very much for covering my speech at the Ontario Institute for Studies in Education on March 13, 1976. The Canadian Environmental Law Association had been worried that people in Port Hope would not realize they had a limit of six months within which to take legal action if they thought they had the grounds for such action. Your report did a great deal to inform the public that quick action was necessary.

I would appreciate it if you would pass along my compliments to your reporter. She reported my remarks with complete accuracy, in an extremely understandable way.

I am enclosing a copy of my remarks so you may keep them on file.

Yours very truly,

CANADIAN ENVIRONMENTAL LAW ASSOCIATION

Heather Mitchell
Counsel
