Dear Sir or Madam:

Thank you very much for reporting my remarks on the legal implications of the radon gas situation in Port Hope in the Star of March 4, 1976.

The Canadian Environmental Law Association was extremely concerned that people not know that they had a mere six months within which to take legal action. It was possible, we thought, that people might allow their rights to expire, not knowing of this limitation. Your excellent reports went a long way towards getting the information out.

I would appreciate it if you would pass along my thanks to your reporter.

Yours very truly,

CANADIAN ENVIRONMENTAL LAW ASSOCIATION

Heather Mitchell
Counsel
