Dear Sir:

Re: Regional Municipality of Halton
Interim Waste Disposal Study

Your correspondence to our Recreation Department has been passed on to us regarding the possibility of an interim waste disposal site at the Natco Quarry.

We agree with our Recreation Department's comments regarding the recreational facilities adjacent to both accesses to the Natco Quarry. Furthermore, we would like to inform you of problems we have had on Unsworth Avenue in regard to existing heavy truck traffic. The residents there have petitioned Council several times to have heavy truck traffic prohibited. We have not been able to meet the residents request, since the trucks are travelling Lumsden's on Sumach Drive. This being the case, the only alternative route for them is through Hidden Valley Park, and we are not at present willing to suggest that this is a better route than Unsworth Avenue.

In any event, you can see that both Unsworth Avenue and the Hidden Valley Park route are entirely unacceptable to the City of Burlington. The area is too built up from a residential and recreational point of view to be considered as a truck access route to a possible interim waste disposal area.

We trust you will keep us informed in this matter, as Burlington will be keenly interested in commenting further if the alternative of this site remains.

Yours truly,

M. Koevoets, P.Eng.
Director of Public Works
