Mr. Richard Phaneuf
National Indian Brotherhood
102 Bank Street
Ottawa, Ontario

Dear Richard:

Attached you will find some material concerning the International Joint Commission's plans to establish an Advisory Board to look into responsibilities regarding Great Lakes water supplies, levels and flows. The enclosed Directive also states that the St. Lawrence River will be looked at. Castrilli has sent a letter to the IJC recommending a Geography Professor, Dr. Grima to the Board. This Board should be of interest to St. Regis, especially in light of our spring meeting with Maxwell Cohen. I'll leave it to you.

S'later

Toby Vigod
Law Advisory Office
