Dear Mr. Swaigen:

On October 18th you wrote the Honourable James A.C. Auld requesting that Bill 127 be referred to a standing committee of the legislature and that the Canadian Environmental Law Association have the opportunity to make submissions before the committee. The matter was referred to me with a request that I take any necessary action.

Bill 127 is scheduled for 2nd Reading shortly after which it is the intention of the Minister to refer it to the Standing Committee for Resources Development. After the Bill has been referred to the Standing Committee the Clerk of the Committee will publish notice of the hearing. At this time you should contact the Clerk of the Committee and make the necessary arrangements for a date and time to make your submission.

If you require further clarification, please write me.

Yours sincerely,

G.A. Jewett
Executive Co-ordinator
