Dear Mr. Swaigen:

Your article on Ontario's proposed Aggregates Act is in the final stages of printing right now and it is too late to send you galleys for proofreading. We have had a few problems at the press this month - the typesetter blew up and there are variations in type which can be spotted by the sharp-of-eye. However, I do hope there are no serious printers devils in your article.

Certainly, we will send you extra copies of the September issue.

Yours sincerely

(Mrs.) Nasreine Canaran
