Ex. 67

MOVED Alderman McLaughlin

SECONDED Alderman Little

CITY OF BURLINGTON

SWM-27-84

THAT the City of Burlington adopt as its preferred alternative for the disposal of solid waste by landfill in the City of Burlington in the short term the Region of Halton's proposed interim expansion of the Burlington site, on the conditions:

- (1) That the expansion be redesigned to provide 20 m setbacks from the top of banks, and that the contingency leachate collection plan for Falcon Creek be reconsidered accordingly;
- (2) That the after-use planting proposal be redesigned in consultation with the City of Burlington and its consultants, with the objective of enhancing the quality, range, size and layout of plantings;
- (3) That the Region's consultants prepare a biophysical survey satisfactory to the City of Burlington's consultants;
- (4) That the City of Burlington be consulted on the detailed engineering of the site; and
- (5) That the Region agree to assist the City materially with the works required to remedy the leachate problems at Bayview Park;
- (6) That the Region undertake to clean up the existing plume from the current landfill site.
- (7) That the attenuation of noise resulting from the interim expansion be addressed by the Region to the City's satisfaction.

and that staff, together with the necessary consultants to the City, be authorized to hold a preliminary meeting or meetings, with staff and consulting representatives of the Region of Halton, to determine the prospect of a negotiated agreement between the two parties that is satisfactory to the City of Burlington, if such negotiations are unsuccessful, the City apply for a two week adjournment of the E.P.A. Hearing scheduled for May 7, 1984 in order to allow its consultants time to prepare the City's presentation;

and that staff be authorized to participate with the Region in the development of an after-use plan for the site;

and that City staff as well as the City's consultants attend the Environmental Assessment Hearing to support the City's position.
