Re: Parkway Belt West Plan, July 1978 Draft
Amendment Proposed by National Sewer
Pipe Limited to Permit a Landfill Operation
and Ancillary/Complementary Operations in
Conjunction with a Quarry

We now understand from Mr. Z. Weing that the Director of Planning and Development of the Region of Halton has informed him that he anticipates the selection of a preferred site to be made by the end of August, 1984. That date coincides with the Region's latest revised timetable for the dispensation of information enabling public comment on its preferred site. With considerable reluctance, we are prepared to not press our matters forward until that time. However, it is our position that after that date, some progress must be made on our applications.

Mr. M. Farrow,
Assistant Deputy Minister,
Ministry of Municipal Affairs and Housing,
Toronto, Ontario

July 17, 1984

We have received from Mr. Goodman, Director of Planning for the City of Burlington, a copy of his letter of June 19, 1984 directed to Mr. Weing. Our position, which does not agree with that of Mr. Goodman, has been reviewed by Mr. Max Bacon with Mr. Weing and, no doubt, as the National Sewer Pipe Limited approval process proceeds, there will be further discussions with Mr. Goodman and the Region respecting Mr. Goodman's concerns.

Sincerely yours,

Roger S. Christensen
President and Chief Executive Officer
