To Mrs. Toby Vigod:

RECEIVED MAR 19 1984

Today I received a copy of Mr. W. Mulbewick's letter to Mr. B.A. Smith, Dep-Min, MoE, etc. (!).

Enclosed is a copy of Mr. D. Portin's letter, also received today, which in effect denies us quick access to the requested information: This substantiates the concern raised by Mr. Mulbewick and myself.

May I suggest a similar protest from you? (I could not reach Mrs. D. Portin at this hour but expect to reach her before you receive this. Regards, Hans Koplin.

Dear Sir:

Re: (1) Interim Waste Disposal Plan 1983
(2) Environmental Assessment - Long Term Landfill
Component
(3) Energy from Waste

On behalf of the Region I acknowledge receipt of your letter under date of March 8th on March 9th concerning the above noted matters.

This will confirm my telephone conversation in which I indicated to you that Legal Counsel for the Region would be contacting Legal Counsel for the Burlington West Ratepayers Group advising the group's Legal Counsel that arrangements could be made for those who would be handling the hydrogeological issues at the hearing to meet with Gartner-Lee, the Region's Hydrogeological Consultant to review the background material that Gartner-Lee has used in order to be able to prepare the final report.

The final report will be available at the end of March but unfortunately it will not be available any earlier.

Gartner-Lee, however, states that it will be necessary for any person involved in the hydrogeology to review the past material. That would likely take until the end of March in any case.

I leave it to you then to contact your own Legal Counsel as to how the matter is progressing.

With respect to the Environmental Assessment of the Long Term Landfill Component, those comments are being forwarded to Council as you have requested and also to the Environmental Assessment Consultant, Walker Wright Young Associates.

Your comments on the EFW are being forwarded to Council and to the EFW Consultants for their consideration in reviewing the ten areas proposed for consideration for EFW.

I trust this is satisfactory.

Yours very truly,
