

RECEIVED DEC 10 1986

December 10, 1986

VIA COURIER

The Honourable Jim Bradley,
Minister of the Environment,
15th Floor,
135 St. Clair Avenue West,
Toronto, Ontario
M4V 1P5

Dear Mr. Bradley:

RE: Environmental Assessment of the Regional
Municipality of Halton:
Intervener Funding
Our File No. 62,181

We act for the Regional Municipality of Halton ("Halton").

Halton is proceeding to a hearing under the Consolidated Hearings Act, 1981 to obtain the approvals necessary to proceed with an undertaking to landfill at either candidate site D in the Town of Milton or candidate site F in the City of Burlington. Notice To The Hearings Registrar was given on the 20th day of November, 1986, and I enclose a copy of the Notice for your information. (Copies were made available to your staff in November).

Halton has been working diligently with your staff and others to bring this matter to a hearing as quickly as possible. We are hoping that the Joint Board will schedule a preliminary meeting in January and a full hearing in March, 1987.

We understand that you have received applications for intervenor funding from Mr. Steven Garrod on behalf of citizens groups in the Town of Milton, and Ms. Toby Vigod on behalf of a citizens group in the City of Burlington. We are instructed to advise you that Halton takes no position as to the appropriateness of intervenor funding. However, our client is very concerned that the issue of intervenor funding not delay the hearing.

PAGE 2

No doubt you are aware that the Highway 416 Environmental Assessment Hearing has been delayed because of the late granting of intervenor funding. In light of that experience, we respectfully urge you to deal with the issue of intervenor funding at the earliest possible opportunity.

If you deem it appropriate to make funds available for intervenors in respect of this matter, we believe that these funds should be made available to intervenor groups prior to, and certainly no later than, the preliminary meeting held by the Joint Board. Halton's environmental assessment has been conducted over a period of 4 1/2 years. The volume of experts' reports which has accumulated over this period of time is very substantial. If Mr. Garrod and Ms. Vigod propose to retain experts to review portions of this material, it will almost certainly delay this matter if they cannot retain their experts well in advance of the hearing.

We and our client appreciate your assistance in connection with this matter.

Yours very truly,
