Dear Toby:

Re: CELA/WBCG/Halton Regional Landfill Hearings

We are enclosing a further interim account as per our retainer with respect to professional services rendered in regard to the above referred matter. This account covers the period July 1, 1987 to December 9, 1987. During this period, I attended on four days of hearings in Oakville before the Joint Board and cross-examined one Town of Milton expert witness on the issue of agriculture.

In addition, during this period, I reviewed Town of Milton reports on the issues of agriculture, bird hazards and planning and continued to summarize herein transcripts.

We trust you will find the attached account to your satisfaction. Should you have any questions, please do not hesitate to contact the writer.

Yours very truly,
Douglas G. Edward
