Ms. Toby Vigod,
Counsel,
Canadian Environmental Law Association,
243 Queen Street West,
4th Floor,
Toronto, Ontario.
M5V 1Z4

Dear Toby:

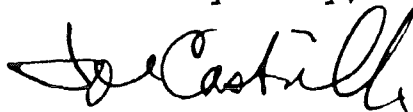

Re: CELA/WBCG/Halton Region Landfill Hearings

I am enclosing a further interim account as per our retainer with respect to professional services rendered in regard to the above referred to matter. This account covers the months of May and June, 1987. As you are aware during this period, I attended on approximately 15 days of hearing in Oakville before the joint board, cross-examined 5 witnesses in the areas of waste quantities, agriculture, transportation, after-use, and air pollution.

In addition, I attended with you at meetings with our consulting hydrogeologist and undertook research on the administrative law problem respecting the situation where a tribunal loses one of its members during the course of a hearing. As well, during this period I have begun to commence the summarization of the hearing transcripts that we have received to date.

We trust you will find the attached account to your satisfaction. Should you have any questions please do not hesitate to contact the writer.

Yours very truly,

DOUGLAS G. EDWARD
