## **Explanation**

The Regional Municipality of Halton ("Halton") is required to provide waste facilities for disposing of ashes, garbage, refuse, domestic waste, industrial solid waste and municipal waste. (Halton is not required and will not provide facilities for disposing of liquid industrial and hazardous waste).

Since mid-1982, Halton has been conducting an Environmental Assessment to identify appropriate methods of providing waste facilities. Halton has concluded that as part of its waste management system, it requires sanitary landfill capacity for approximately 7.96 million cubic metres of waste during the period 1988 to 2008.

As part of its Environmental Assessment study, Halton has identified two alternative sites within its Regional boundaries which it regards as appropriate sanitary landfill sites. These sites are identified in the Environmental Assessment as Sites D and F. Only one of these sites is required between 1988 and 2008 and Halton is seeking approval for either of these sites.

Site D in the Town of Milton is located between Highway 25 and First Line, approximately one-half kilometer south of Britannia Road. The proposed site is approximately 126 hectares. Site D is comprised of Lot 3, Concession 2 and part of Lot 4, Concession 2 in the Town of Milton, in The Regional Municipality of Halton, formerly in the Township of Trafalgar, in the County of Halton.

Site F in the City of Burlington is located north of Highway 403 on the northwest corner of the North Service Road and King Road. It is bounded on the west by the existing Region of Halton Landfill, and on the northeast by Bayview Park. The proposed site is approximately 96 hectares. Site F is comprised of parts of Lots 2, 3 and 4, Concession 1, part of Lot 3, Concession 2, and part of the road allowance between Concessions 1 and 2 in the City of Burlington, in The Regional Municipality of Halton, formerly the Township of East Flamboro in the County of Halton. Location of the sites D and F are as shown on the map.
