Dear Friend:

I suppose you have probably already received a copy of this letter from the NDP Caucus at City Hall, but I wanted to bring it to your attention with extra emphasis. I think it's very important for the Environmental Movement to take advantage of the money that has been made available through the sale of the Langstaff Lands. It provides a unique opportunity to address concerns that were previously too expensive for community based groups to tackle.

I hope that you will read the letter attached and present a proposal on the 11th.

Sincerely,

Marilyn Churley
Councillor - Ward 8
