Dear Andy,

Re: Great Lakes United Project Proposals

Just to let you know that I received Phil Weller's draft proposals after he had left for vacation on Friday. I imagine you will require some more detail, especially for the second project reviewing health regulations. I just wanted to let you know that GLU president John Jackson and I are willing to substantially revise these proposals this week, after you have had a preliminary look at them.

Yours truly,

GREAT LAKES UNITED
