MAR 22 1993

SUBJECT: March 31st Stewardship Indicator Subcommittee Conference Call

FROM: Joel O'Connor *Joel O'Connor*

TO: Subcommittee Membership

You should by now have Minutes of our February 8th Stewardship meeting in Buffalo.

Our next "meeting" will be via teleconference call on Wednesday, March 31, 10:00-11:30am EST. In order to participate you must call an EPA call-in number: 202-260-4230, at about 10:00am. Your call to this number should automatically connect you with the Subcommittee. If you have difficulty reaching the teleconference, call me on 212-264-5170, not on my personal line. Note that I will not permit the conference call to continue beyond 11:30.

The teleconference Agenda is attached. Recommended changes should reach me by March 29th.

Again, authors and co-authors of the "indicators under development" should be making substantial progress toward presentations for our May 13-14 workshop.

Please call me (212-264-5356) if you have any questions.
