MEMORANDUM TO DISTRIBUTION

July 20, 1994

Subject: **Meeting on "Chemical" vs. "Radiological" Approaches
to Regulating Tritium in Drinking Water**

There was a meeting held on July 15, 1994 at 700 University Ave., conference room 13A to discuss the chemical (ACES) and radiological (traditional) approaches to regulating radioactivity in drinking water. As requested by many of the those in attendance, I am distributing a copy of those presentations for which written material was available. Also attached is a list of attendees and their phone numbers.

For those who were not able to attend, the following contains a brief description of the meeting agenda and proceedings.

Purpose of meeting:

- to increase understanding of the approach to radiological standards.
- if time permits, to explore options to address discrepancies, but NOT to attempt to resolve any issue.

Agenda:

- 1) Review Agenda/Process (20 min)
- 2) Primer on Radiation (presentation by R. Maruska of Ontario Hydro-10 min)
- 3) "Chemical" approach to regulation (presentation by M. Goldberg, Chair of ACES - 20 min)
- 4) "Radiological" approach to regulation (presentation by R. Maruska - 20 min)
- 5) Other Implications

Attendance: Meeting of July 15, 1994

Name	Organization	Phone No.
