Dear Ms. Miller:

This is a note of thanks for the effort you devoted to making such a success of our March 30-31 Policy Workshop in Toronto, Ontario. The IJC Commissioners, IJC staff, and the study team for the reference on water consumption, diversion, and removals were left better prepared to take on this challenging study as a result of your participation.

We hope that we will have other opportunities to continue this dialogue and that you enjoyed it as much as we did.

Yours sincerely,

L.H. Legault  
Chairman
