Dear Ken:

Re: Proposed timeframe for CCME Pollution Prevention Options for Incineration

As a follow-up to a telephone conversation between Lisa Trevisan and Fe de Leon on October 26, 2001, I am proposing for your consideration, the following timeframe to complete the CELA project on **CCME Pollution Prevention Options for Incineration**. Also, I have attached the proposed Table of Contents (dated September 21, 2001) for your files.

Proposed timeframe:

Proposed Table of Content (dated September 21, 2001) - submitted	
Revised Table of Content (to be submitted October 31, 2001)	
Rough draft of report (not for circulation)	October 31, 2001
Draft report (for distribution and review)	November 15, 2001
Final report	November 30, 2001

The review process for the draft report will include an internal review by CELA staff and NGO community. We have proposed this timeframe with the understanding that the report findings are relevant to the discussions of the IMAG on incineration.

Yours truly,

Canadian Environmental Law Association

Paul Muldoon
