Dear Joan and Joanne,

The Collection of the Canadian Environmental Law Association

It was a pleasure and relief to meet with you both to explore Wilfred Laurier University's interest in the archives and special collections of the Canadian Environmental Law Association and its Resource Library for the Environment and the Law. We are certainly very excited and gratified about the prospect of our collections eventually being part of TRELLIS, the impressive TriUniversity Group of Libraries Catalogue.

Certainly a lot of our materials will enhance and build on areas of interest already a focus of your collections. We reported on our meeting to our Board of Directors at their July 8th meeting. They too were enthusiastic about the prospect. We are prepared to store the bulk of the collection and release it to you gradually to accommodate your relocation and work schedules. We are delighted that our 32- year history will be handled and housed in a location where there is so much care and understanding of the importance of environmental and resource protection.

We would like to execute the draft agreement this week since Paul Muldoon will be going on holiday the following week. Do you already have a template that we could adapt for our purposes? Please let us know what terms you will need to include.

I look forward to working with you both on this project. Thank you for taking the time to travel into Toronto. Once your new building is complete, we would like to come and see it.

Yours truly,

Sarah Miller
Co-ordinator
