Dear Ms. McClenghan:

Thank you for your letter of May 4, 2005 about the *Nutrient Management Act, 2002* and source water protection. I appreciate your interest in nutrient management and your continuing role on the Provincial Nutrient Management Advisory Committee. I especially appreciate the constructive role you play in your discussions with the government and farm organizations.

I understand you will be meeting with the Honourable Leona Dombrowsky, Minister of the Environment and have already met with Premier McGuinty on some of these same issues. Both Premier McGuinty and Minister Dombrowsky will certainly address any potential issues regarding source water protection.

I know you have also met with staff from the ministries of Agriculture and Food and the Environment; they have communicated your perspective to me.

The written submissions you have provided to Minister Dombrowsky and me have been helpful in the government's deliberations about source water protection and nutrient management, and the integration and coordination of these two initiatives. Should changes be proposed to nutrient management, we would welcome your comments and analysis during the public consultation process. Protection and improvement of water quality is a goal we share.

.../2

Again, thank you for writing.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steve Peters', with a stylized, cursive script.

Steve Peters
Minister

c: The Honourable Leona Dombrowsky
Minister of the Environment

Ms. Suzanne van Bommel, Executive Assistant and Chief Adviser to the Minister
Ontario Ministry of Agriculture and Food
