

Standing Committee on Justice

clause by clause May 16th
deadlines for amendments now made

Paul Norris - Ontario Waterpower Association

- should respect the outcome of the process
- improvements modernise
Lakes & River Improvement Act May 22.
requirement for a new water management
plans only for rivers that produce
hydro. not wave of water regulations -

OWRA additional water management
requirements 2014 amendments

2 sets of rules - 2 separate ministries.
need for integration

130 million annually paid by hydro
power

~~existing~~ ^{new} language in the exemption
clause.

Elizabeth Griswold Executive Director

Blake Cassels & Brayton with her
partner Lee

rep. 85% of all suppliers in Canada
waste no water - 10 to 12¢ per bottle
not ^{free} millions invested in plants.
350 employees.

concerns about this Bill
posting only 30 days "stifling
debate"

not consulted about \$3.71 per litre

2/10 of 1% of water taken = 10 galb cases
700 galb cases in Ontario

Do not support this change
Consumers free use definition (flawed)
~~Do~~ Do to of lawn watering is consumption
in class movement.

Why am I as taking being asked to
pay as they change quality.

all users should pay equally
their counterparts ~~as~~ not value

individual users 290 charges
should not ~~be~~ be at this
percentage of water management

sustainability & protection will
be set back.

Michael Due
what time frame for delay
of changes. So they can see
the regulation & the Bill at the
same time.

Rick Lindlaw -

Bill should require interpretation
manual.

Vim Morris -
Context - 84. 20% most is non-
unrecoverable - 1998.

mapa of St. Catharines with a circle

new assumption will be

applied -

314 point -

mapas (inches)

at test should be at beginning
of session (314) of Bill

support this recommendation -

Ontario Federation of Agricultural

3800 farmers 9 out of 10

advisory committee

warning of livestock

remain competitive with areas outside
consumptive use, coefficients do
not work up a thing

must to - take - water - users -
most indiv. users - needs to be met (house)

ground not (invasive) storage (yards)

Beneficial water practices

farmers cannot bear meeting costs

surge of migration paper
should be taken into consideration

information transfers - computerize only
info. market

seasonality

OCUH - farmers only have 3 state
on SP. committees

Ontario Sewer & Waterboard Assoc

will cost pricing of Ontario's
wastewater system.

growing you need to be clear
about what roads etc.

often below waterfalls

Pittu are mandatory for them
does not distinguish between
between points for
Sewer

exemption for short-term
sewer for works in tunnels
on tunnels

water in trench - for
water in trench - for
technical tests

unless they are any work should
be stopped.

ht always apparent if
Pittu is needed

little work on
activities.

temporary activities
diverting

unilateral require PM??

198 makes no distinction

except that not significantly
different. I'd assume the section
applies to general process
with no jobs.

Stovel & taken to STP.
