Re: Water taking Permit Brief- Amendments to O.Reg 285/99
Date: September 22, 2004

Background

CELA prepared a brief on the draft water taking and transfer regulation amendments on August 17, 2004. The brief has been posted on our web site. We also did a preliminary analysis of the regulation and circulated it to groups and individuals earlier on so that they could provide comments to the MoE.

The file is located in a grey box on the shelf behind my desk and labelled WATER, MoE's PTTW programme, reports, Annex 2001.

There are no additional steps to be taken on this file. However, I have asked Sarah to maintain a watching brief. I have asked also Tracy to forward any future correspondence on this matter to Sarah.
