

4. Property Value - Aford they will decline drastically due to the above environmental aspects as well as the visual aspect from practically every area of Aldershot, Also by reputation of being a perpetual dumping ground forever.
5. Those of us close to the dump site also have to deal with the problem of "Side of the Road" dumping during the hours that the dump site is closed

The above have not been presented in order of importance but I have heard the same concerns repeated again & again and therefore feel a responsibility to bring these concerns before the board. They all have come to the conclusion that "they don't want anymore dumping in the Aldershot area". 75 years of dumping is our fair share - give it a rest & let us try to clean up the legacy we are leaving where if we can.

~~Just expect it to answer the entire problem~~
~~Long term would have to be~~
see - breeneration or energy from waste even though it might have its own peculiar problems
