Mr. Robert J. Bennett
1706 Larchwood Green
Burlington, Ontario
L7P 2X7

APR 17 1986

Dear Mr. Bennett:

Thank you for your submission dated March 7, 1986, regarding The Regional Municipality of Halton, Landfill Environmental Assessment.

The selection of the two preferred sites as outlined in the "Notice of Completion of the Review" is the result of a detailed evaluation of six sites investigated by The Regional Municipality of Halton.

During the next few months, The Regional Municipality of Halton has indicated that they will continue to examine the two preferred sites, provide information on the natural, social, cultural and economic effects of the sites, and make that information available to interested parties.

If a hearing is required for this project, I would encourage you to make every effort to become involved in the hearing process, and to make your concerns known to both the Region of Halton and the Board.

Your name has been placed on the mailing list for all subsequent notices or orders associated with this undertaking. Should you wish to receive additional information associated with this undertaking, please contact Roger Clarke of the Environmental Assessment Branch (416-965-4139).

Thank you for your interest in this Environmental Assessment.

Yours sincerely,

Original signed by Minister

Jim Bradley
Minister
