Étude proposée pour l'énoncé des incidences  
environnementales pour l'Installation de  
stockage de déchets radioactifs à faible et  
moyenne activité dans des couches géologiques  
profondes

Commission d'examen conjoint

**16 septembre au 12 octobre 2013**

## **DGR Joint Review Panel Hearing – Written Only Submission**

I would like to indicate my support for the **OPG's DGR Project**. I am a retiree who worked 22 years at the Bruce Nuclear Site including 6 years at the Radioactive Waste Reduction Facility (RWRF) as a Senior Technical Supervisor. I feel that Nuclear Power is a safe source of electricity which does not contribute to global warming. The operations of RWRF has always been conducted in a safe and environmentally friendly manner. There is no doubt in my mind that the **OPG's DGR Project** will be operated in a similar manner and will not affect adversely the environment or the health of the population living in the vicinity of the facility.

Respectfully yours,

Steve Jurkiewicz  
Kincardine
