environnementales pour l'Installation de
stockage de déchets radioactifs à faible et
moyenne activité dans des couches géologiques
profondes

Commission d'examen conjoint

16 septembre au 12 octobre 2013

August 6, 2013

Written submission from Lake Huron Learning Collaborative in support of the OPG - Deep Geologic Repository in Kincardine

Lake Huron Learning Collaborative is a locally based; non-profit that is committed to providing professional development and personal advancement through post-secondary educational opportunities in Bruce and Huron counties with two offices, one in Kincardine and one in Goderich.

Offering affordable and accessible local education and training generates possibilities for local community sustainability and economic development with expanded employment opportunities due to a more highly skilled workforce with the potential to retain youth.

The Learning Centre delivers educational opportunities through a collaborative approach to learning. The Kincardine facility has the following organizations: Lake Huron Learning Collaborative, Adult Learning, vpi(employment services), Contact North (online learning), PREDC(economic development). Working together with a common goal ensures the needed resources are available to individuals all in one facility.

OPG funding has been instrumental in giving LHLC in Bruce and Huron Communities the opportunity to deliver College Certificate Programs, workshops and information sessions and developing local talent that will benefit the business community, nuclear industry and the OPG's future operations and ensure long term stability and build capacity.

We look forward in working with OPG in the future with the growing presence of LHLC in the community allowing for expanded future educational opportunities.

OPG has safely operated nuclear facilities in the area for 40 + years and has the support of Lake Huron Learning Collaborative.

Sincerely,

A handwritten signature in cursive script that reads "Judy Cairncross".

Judy Cairncross
Co-Chair, Lake Huron Learning Collaborative
